

# THE BIG MEETING 2006

A National Family/Physician Conference on Histiocytic Disorders

Please join us for a day-long conference on histiocytic disorders which is being co-sponsored by the **Histiocytosis Association of America** and **The Sydney Salem Golding Fund** and is being held in conjunction with **The Big Fix 2006** cross-country histio fundraising ride.

This conference will bring together experts in histiocytosis from across the United States to address the diagnosis, treatment and research of histiocytic disorders during panel sessions and to discuss more disease-specific issues during separate breakout groups.

**Sunday, July 9, 2006**  
**Cleveland, Ohio**

Histiocytosis patients and their families attending the conference also will be able to network and to share their personal experiences with each other during a luncheon and a patient-focused panel session which will deal with practical issues associated with these disorders.

You can request more information about the format for the conference and how you can register by calling **The Sydney Salem Golding Fund** at (216) 235-3005 or sending an email to [info@sydneyfund.org](mailto:info@sydneyfund.org).
